---

Here is a revised Region 6 fact sheet. Please assure OCFO that these issues are vastly different than those described in the national paper.

**Subject:** RE: Hydrofracking fact sheet for budget hearings

Cynthia, OCFO feedback is that the Region 6 paper is duplicative of a national paper we already have. I thought if you made your paper more specific to Region 6 we might be able to get it in the Administrator's briefing book. As a suggestion I moved one bullet, that included Bartlett Shale, from the background to the beginning of the answer. I hope you will be able to do a much better job than I. Also, attached is the national paper.

**Subject:** FW: Hydrofracking fact sheet for budget hearings

Hi Cynthia,

The OCFO guidance says that factsheets can't exceed one page. And you can't change the margins or font.

Also, the answer is much too long. OCFO guidance says answers are restricted to 2 to 3 bullets of one to 2 sentences each. Answers have to be brief so that the witness can respond quickly.

If you will revise the paper down to one page and change the answer to conform with the guidance I will begin our approval process.

Louise, Omayra and Tim –

I'm sending this fact sheet from Region 6 to all three of you because it describes impacts to both air and water quality. I'm guessing you have already decided among yourselves whether OAR or OW will take it from here.

This is item #11 on the list of topics attached to the memo of March 15. Please let me know if you have any questions.
